

DESIGNED FOR ENDLESS POSSIBILITIES.

SC-T3130/T3130N

SC-T3130X*

SC-T5130

Distinctive Quality Meets Endless Possibilities For Your Creative Ideas.

Take your ideas to a bigger scale with greater performance and precision with the Epson SureColor T-series printers. With PrecisionCore printheads, and UltraChrome XD2 ink to bring fast printing speeds, seamless work process and top-class accuracy in every print. Showcase your ideas and plans in a big way right down the finest detail.

GO BIG on the details and find out more from our printing experts.

*SC-T3130X stand is optional and is not included in the initial packaging.

IT'S IN THE DETAILS.

EPSON
EXCEED YOUR VISION

For accuracy right down to the finest details, the Epson SureColor T-series printers fulfil all your business needs. Using core technologies such as PrecisionCore printheads and UltraChrome XD2 ink, prints are delivered at an outstanding speed with impressive accuracy and clarity. Let your ideas impress your audience with prints that are consistently fast, precise and reliable.

Compact, User-Friendly Design

Small Footprint

Sleek and minimally designed, the T-series is of a comfortable size that fits into tight work spaces effortlessly. At just 970 x 245 x 577mm without the stand, the SC-T3130X has one of the smallest footprint in its class.

Ideal For Corners

As the printers are built for a full front operation, it can be placed ideally in any corner of the office, without taking up too much space.

User Convenience In Mind

Designed with the user in mind, the printer will print and cut printouts without dropping it from the printer, until it is ready to be collected.

Ergonomically Design

Designed with the user in mind, the T-series printers' smart design can cater to users of different heights to help make it comfortable for them to load the media as well as to operate the printers.

Trusted Productivity

Continuous Ink Supply System (CISS)*

The SC-T3130X is fitted with a Continuous Ink Supply System (CISS) for a seamless workflow without the need for ink replacements to delay print jobs. With an efficiently designed ink tank and system, ink refills during print jobs can be easily and effortlessly done, without compromising on efficiency.

*Applicable for SC-T3130X

Wireless Connectivity

The T-series is integrated with Wi-Fi and Wi-Fi Direct, making it convenient to print right from smart devices from anywhere in the office. The Wi-Fi Direct function acts as an access point, allowing devices to connect directly to the printer without a router. Additionally, the T-series printers come equipped to allow direct wireless printing from any Apple devices through Apple AirPrint*, without the need for any additional drivers.

*Apple AirPrint is a trademark of Apple Inc.

LARGE FORMAT PRINTERS

SURECOLOR™ SC-T3130/T3130N/T3130X/T5130

Control At Your Fingertips

A 4.3 inch touch panel on the T-series gives you the convenience of an easy setup and a PC-less operation that just makes things extra efficient.

Preview Before Printing

Save time and money when you preview your documents before printing, preventing accidental misprints that could otherwise lead to wastage.

Seamless Scan To Print

Scan and enlarge your printouts in just four easy steps without needing to connect to a computer.

Using compatible Epson scanners* for the SC-T3130/T3130N/T3130X/T5130, you can seamlessly scan and print directly from the T-series printers.

*Recommended scanners: WorkForce DS-530, DS-6500, DS-60000.

Precision Printhead Technology

The T-series comes equipped with the next-generation PrecisionCore printhead technology, enabling superior print speed, quality and reliability. PrecisionCore technology utilises piezo elements to mechanically eject the ink. This heatless technology prolongs printhead longevity, providing reliable long-term operation.

The PrecisionCore technology, as well as Variable Size Dot Technology, allow the ink droplets to be controlled to the finesse of 3.5 picolitres.

Nozzle Verification Technology

Print without interruptions with the advanced built-in Nozzle Verification Technology (NVT). This technology monitors nozzle health and adjusts print quality automatically without interruption, even during printing.

The piezo element (sensor) detects the residual vibration (pressure change) in the ink chamber and diagnoses the nozzle condition.

If a clogged nozzle is indicated by an irregular vibration pattern, the printer automatically adjusts the print quality.

Anti-dust Design

Incorporating a unique anti-dust design, the T-Series printers require minimal cleaning and maintenance that are required for environments that are traditionally dusty, such as, construction sites.

Outstanding Speed & Quality

Impressive Print Speeds

The PrecisionCore printhead technology enables remarkable print speeds that will print A1 printouts in 31 seconds*.

*Print speed is based on the SC-T5130.

Advanced Printhead

The next generation of inkjet comes in the form of the PrecisionCore Micro TFP printhead, delivering Epson's renowned, industry leading output quality, reliability and accuracy. The Epson SureColor T-series produces extremely precise line detail, crisp text and true photographic-quality graphics — all at outstanding print speeds.

Applications

Engineering

Print incredible detail, fast

Low costs and high speeds make the T-series printers ideal for engineers. Produce detailed and accurate large-scale drawings, renderings, schematics, blueprints, and more whenever you need to. Long performance printheads and less frequent cartridge recharging means you control the quality of the prints saving you time and boosting your profits.

Construction

Control costs and increase flexibility

Impress your clients and partners with your presentation of large format documents and plans with superb image clarity, quality and detail. Rapidly and accurately create indoor building signage, building wraps, scaffolding covers and large mesh banners in-house and cost-effectively. With a technical printer, putting the CAD drawings or other plan renderings on paper is easy.

LARGE FORMAT PRINTERS SURECOLOR™ SC-T3130/T3130N/T3130X/T5130

Architects

Display your CAD designs in outstanding detail

Create new perspectives and allow your clients and associates to explore the richness of your designs, renderings and graphs with stunning full-colour displays, brilliant detail and sharp photography. The T-Series technical printers handles the requirements of CAD printing and plotting, blueprints, along with the business proposals and documents that are needed for the client and legal aspects of your projects.

Advertising Agencies

Get noticed and get your message across

Make a splash and grab your clients' attention by creating vibrant, customer eye-catching advertisements quickly and seamlessly. Print everything from large photo quality posters to banners. The T-series printers will increase your marketing efficiency, allowing you to transition from one marketing creation to the next with ease.

Small Businesses

Embrace your creativity

From posters to banners to presentations to graphics, what says more about your business than big, bold images of customers enjoying your products or services? The T-series printers elevate your brand's image to a level beyond anything you could imagine, making your business stand out from the crowd and really shine.

Education

Inspire young minds

Schools, colleges and universities are often required to have the latest technology to encourage and inspire the next generation. Enthuse students and teachers alike by generating stunning printed collateral for the classroom and print promotional materials for school events, in-house.
